absent on professional business. We beg leave to inform our friends and the pub lie, that uur principle and practice are essentially different from the ordinary mineral course, and also from the Toropsonian or Steaming plan. We practice according to the principles of the Refurned Medical Society of the United States, as taught at its Colleges in New York and Worthingtun, Onio, discarding all the preparations o my, autimony and other poisonous minera so much used by physicians of the present day and which are so deleterious to the human system using in their stead vegetable remedies, far more powerful in removing disease, and which leave the constitution uninjured. The experience of others, as well as our own in an extensive practice of several years, has fully proved that mineral medicines internally, are entirely unnecessary in the treatment of any disease, and we helieve there are but few of those who have taken them, who will hesitate to say that they are injutious, uncertain and dangerous in their operation.

As to the Thompsonian system, we admit that it contains some good remedies, but it is cutirely too limited, too heating or stimulating, and steam is too frequently and induscrimicately used.

We use no preparations of medicines which are umbered, and for which there is a patent right Further, we believe that no man can make a goo physician, without a knowledge of the anatumy of the human system, and every other branch of medical science. We presome it is generally known that Thompsonians deny the necessity of

It was now Tim Watson's turn to give an account of himself; which he did with a very long were beyond his age. The passion thus early conceived was blown into a flame, during a six week's vathe old Hall of Annesley. During Byron's minority, the estate of Newstead was left to Lord Grey de Ruthven, but its youthful Lord was always a welcome guest at the Abbey. He would pass days at a time there, and from ence make frequent visits to Annesley Hall. His visits were encouraged by Mis-Chaworth's mother; she partook none of the family feud, and probably looked with complacency upon the attachment that might The following is extracted from Bernard's Manuscript Journal:—

Byron sometimes speaks as if he had met with kindness in r turn, at other times he acknowledges that she never gare him reason to believe that she luved him. It is probable, however, that at first she experienced some flutterings of the heart. She was at a susceptible age; had as yet formed no other attachments; her lover hongh boyish in years, was a man in intelhie and cowardly abuse of women for political lect, a poet in imagination, and a countenance of remarkable beauty.

With the six weeks' vacation ended this brief romance. Byron returned to school deeply enamoured, but if he had really made any impression on Miss Chaworth's heart it was too slight to stand the test of absence .-She was at that age when a female soon change from the girl to the woman, and leaves her boyish lovers far behind her .-While Byron was pursuing his school-boy studies, she was mingling with society, and ters, remarkable, it is said, for manly beauty. A story is told of her having first seen him from the top of Annesley Hall, as he dashed through the park with hound and horn, taking the lead of the whole field in a fox chase and that she was struck by the spirit of his appearance, and his admirable horsemanship. Under such favorable auspicies, he woode uts. The phienologists, on examining these scells, were obliged to make a merk in order to designate the one they took up for F. de Laplace; and they met her, he learned to his dismay that she was the affianced bride of another.

With that pride of spirit which always distinguished him, he controlled his feelings and maintained a serene countenance. He even affected to speak eamly on the subject of her approaching ruptials. It then entered New Brunswick by Current, Neilson, Schureman, and Burnett streets, carrying destruction before it. We have not been able to ascertain the names of the occupants or the sufferers.

As near as we can ascertain, fifty dwelling houses are destroyed, and a vast number much injured. Three persons were killed, and from one hundred to one hundred and fifty wounded. The names of the killed are, the widow Van Arsdale, Henry Boerum, Esq. an officer of the Navy, and a son of Judge the time of my visit the mere roots of the Boernin, and a youth named Bayard, son of

COL. JOHNSON'S REPLY TO THE COMMITTEE OF THE BALTI-MORE CONVENTION.

We ask for Colonel Johnson's letter a candid and attentive perusal. It is honest history-not profession-and has the devoted patriotism of a long life—the consistent democracy of thirty years public service, to stand as guaranties that he will not be wanting in the maintenance of the principles to which he stands pledged by the great fundamental doctrine of his political faith—obedience to the will of the People. If called to the Vico Presidency, it will be, on the part of the People, recognition of the doctrines he avows; and for his own sake and theirs he will feel himself equally bound to maintain the grounds taken in his letter of acceptance.

From the Riehmond Enquirer. COL. JOHNSON'S LETTER.

We are obliged to Mr. Stevenson for the following interesting correspondence. Col. Johnson's reply was received on Sunday last-and we hasten to lay it bofore the public. He now abjures all National Banks under every modificationand declares his determination to carry out the principles of the Jefferson school. and the precepts of the present administration. He pays a warm and handsome tribute to the exalted talents and sound principles of Mr. Rives--and with a modesty equal to his liberality, attributes the preference of the Convention only to servico, and not to any superior qualincations of his own. He significantly avers, that his "highest political ambition will be more than satisfied," by the office to which he has thus been nominated. For one, we are most anxions to do Col. Johnson full justice—to extenuate nothing from the services he has rendered to his country-to respect the blood he has freely shed in her struggle-nor to set down aught in malice.—We lend him a liberal, even though it may not be a favorable, ear-and most cheerfully do we give the use of our columns to the following Exposition, for the consideration of others. not the man whom we prefer for the Vice use this power to direct the President—but he has a right to be heard

FRANKLIN CANNON, V. Pres'ts of the National Convention. To R. M. Jounson, of Ky.

GREAT CROSSINGS, 9th June, 1835. Gentlemen: I have had the honor to receive your letter, informing me that I have been nominated by the recent Republican Convention at Baltimore, as a

candidate for the office of Vice President. For this expression of confidence from not language to express my gratitudo. For the exalted talents, pure character, and sound principles of the gentleman, him my cordial support. To my greater age and longer public service, and not to preference of the Convention; and if any injury should accrue to the Republican pecuniary interests of a portion of the causo from that preference, no man will people. deplore it more than myself. As, how ever, the Convention were undoubtedly

but from the error under which they appear to have labored in relation to my political principles. I do not know my self, if my principles do not accord with Administration of Jefferson, Madison, and Monre, I was a member of Congress and gave them my cordial support. From the earliest moment, I uniformly acted with the republican party, founded on the principles asserted by Virginia in 1798, and never withheld my support on any occasion, from either of the distinguished real, for the high destiny which he has been summoned to fill in the world it. Upon the same grounds I felt constrained to vote against the establishment of the

States ought to be rechartered, and I deto the removal of the Public Deposites, at every point at which it was assailed, with a view to sever the connexion between the Government and the Bank, and to make sure of a final deliverance from the Institution. Indeed, I have never wavered in my opinion against its constitutionality, and have never seen the moment when I would have given my vote for any similar institution. I cannot conceive how the opinion got abroad that I was in favor of the Bank, or of any such unconstitutional monopoly, unless it be from the circumstances that I did not, pledge myself against every possible substitute for the present Bank. Gen. Jackson, in one of his annual messages, suggested the outline of a substitute without I understand it; and in his veto message, he declared that he could have furnished stitutional objections. Many of his friends believed that it would be absolutely necessary to have some substitute, and suggested a variety of schemes. To all these I listened without giving my assent to any; and never for a moment did I harbor a thought of proposing or supportin the experiment to uso the State Banks: and then only such a scheme as should

Administration and the Republican party, The recent developments of the power It is well understood that Col. The facility and success with which the public business has recently been done through the State Banks, have, in my opinion, proved that a National institution is as unnecessary

At tho close of the last war, the general sentiment, seemed to prevail among our eminent statesmen, especially those who had supported the Government in that conflict, that it was the true policy of tho Government so to regulate the tariff, as to promote the establishment of manufactures within our borders. In this opinion. many statesmen from the South united with those of the middle and western

Without being distinguished as a peculiar advocate of the course of legislation which grew up under these eircumstanees, I gave it my support in pursuance of public opinion. As soon, however, as I perceived the dangers which were likely to grow out of this species of legislation pushed to excess, I became an advocate for the reduction of the tariff, and voted for every preposition having that end in view, down and including the compromise which was made at the session of 1832-3. That compromise ought to be considered by all good citizens as putting an end to the question. No prudent and patriotie the Republican party of the Union, I have newal of that species of legislation. For man will, I am sure, ever atttcinpt a re consider any attempt of that sort as savouring of enmity to the government, inwhose name was brought in competition asmuch as it is unnecessary as a measwith mine, no man can have a higher re- ure of policy, and would certainly revive spect than myself; and had he been pre- a controversy more dangerous to our ferred by the Convention, it would have Union than any other which has arisen afforded me the highest pleasure to give since the adoption of the Federal Constitution. On other subjects, a public life of thirty years uninterrupted activity has, I trust, been sufficient to enable my countrymen to understand my principles and my motives of action. I believe no man will charge me with dereliction of duty towards my country, or my countrymen. In devotion to my country, no one will say that I have been wanting; and I trust fended the President's measure in regard that mine has not been "a faith without works." My constituents have never charged me with neglect of their interests, collectively or individually; and, to an American citizen, complaining of wrong, and asking the aid of a friend, wherever residing or however poor, unknown and humble, I have never turned a deaf car, or refused to labor for him, as for a brother. To this faithfulness, and these exertions to be useful, more than to any extraordinary qualifications in me, do I attribute the honor which the Convention have done me; and should the people respond favorably to the recomwith the ardor of younger politicians, unendation of that body, my highest politieal ambition will be more than satisfied. It will be a confirmation, by the voice of my whole country, of the repeated proofs of approbation, given by the people of my stockholders, or power to make loans, as lown State, to the well-meaut labors of a life devoted to the service of the nation.

But, whatever may be the face of the from the kind partiality of the members of the Convention, coming from almost every State in the Union, as the representatives of the Democratic party, with which it has been my pride to act throughout my public career, I shall ever cherish with the most affectionate recollections, ing any one, except in the event or failure | a deep sense of the obligation they have

TORNADO. Our city experienced a most awful visitation, about 5 o'clock yesterday afternoo, a TORNA-DO having swept through it from tha western suhurbs down to the river, and in its resistless course destroying a vast amount of property, to which we regret to say, must be added a number of lives.

It was first seen approaching from tha west, and from the clouds of dust, shingles, &c., that rose in the air, was supposed by the inhabitants of the ower and central parts of the city to proceed from a heavy fire, and the alarm bells were rung; but the flying uf rooffs, rafters and trees, in every direction, soon taught them that a hurricane was rushing with awful violence through the town, leaving a complete mass of ruins to mark its track. Where it first enumenced we cannot correctly learn, but it is said in the vicinity or north of Trenton: and report; says many of the farm houses and barns northward of the turopike, are blown. and barns northward of the turopike, are blown down or otherwise injurad. Having struck several houses a little distance from the town, it reached the hill, where it remained apparently fixed for a minute or two, presenting the appearance of a pillar of fire,—its base resting on the earth, and its top reaching a mass of black clouds. It theo took top reaching a mass of black clouds. It then took an eastern course, threatening Albany and Church streets, but suddenly changing its direction, swept across the town lots towards the dwellings of Mr. B. Myer, Mrs. Deare, Prof. McClelland, Rev. John Croes, L. Kirkpatrick. Esq. Mr. Kirkpatrick, and Rev. Dr. Janeway, tearing the roofs off of some, making literal wrecks of the barns and out-houses, and either uprooting or twisting off the largest trees-in some instances carrying the the largest trees—in some instances carrying the latter twenty or thirty paces. It then crossed to the buildings at the head of Patterson, Liberty, Bayard and Schureinan street, unroofing the house of Mrs. Harrison, fevelling the store of Mr. Litthe, and buying beneath the falling timbers, Nicholas Booraem, Esq. and his eldest sun Heory.

Both were extricated a short time after,—the son n a dying state, in which he lingered until nine myself, can sincerely say, that I should his sufferings—the father seriously, but we believe, clock last night, whan death relieved him from not dangeronsly hurt. A young lad, about 8 years of age, son of Captain Baird, was also killed near this spot, a rafter from the Blacksmith's shop having struck him immediately above the eyes, and almost severed his head. SCHOOL FOR YOUNG LADIES. THE subscribers, as associated Principals, propose opening in Lexington, on Munday, the 6th of July next, a permanent institution for the education of Young Ladies. While their primary object will be to impart a sound, thorough course of instruction, with direct reference to the dicious developements of the intallects and the cultivation of the moral characters of those committed to their charge, those branches commonly styled ornamental, shall receive due attention. Believing that no course of education can he Lewis, Janes thorough or judicious, in which the Sacred Scrip-Linsey, James thorough or judicious, in which the Sacred Scriptures are neglected, the higher classes will have assigned them one recitation a week in the Bible. A sound and practical exposition of the Sacred Volme, embracing the coffateral subjects, will be aimed at, without the slightest attempt to create a Manuion, Thomas Mathes, Sarina mrs

Having had some considerable experience in training the youthful mind, the subscribers pledge themelyes to use the most unremitting efforts to promote the intellectual and moral culture of their upils. One female assistant is engaged; others will be procured when needed. The Chemical Philosophical apparatus necessary for the illustration of those sciences will be furnished. Special attention will be given to the subject of original composition, with the view of teaching the pupil o write with facility and elegance. The terms of nition are very moderate. The School Rooms tuition are very moderate. The School Rooms are pleasantly situated on Limestone street, on the same lot with the dwelling house of the Rev. J. P. AFTER a lapse of twenty-five years, the subscriber is about to resume the onerous and important duties of editing the KENTUCKY GAZETTE. From the New York Evening Post. The following extracts from various French journals are furnished us by the arrival of the Constitution. Whatever throws any light upon the disposition of the French people in relation to the nuestion in dispute between their Government and ours, must possess interest for our readers.

From the Gazette de France (Carlist) 30th April 1835. The Sun, after citing the articlo of the Gazette de France, which speaks of the departure of Mr. Livingston as a necessary consequence of the amendment introduced in the projet de loi of the twenty-five millions, thinks that there will not be, on this account, a rupture between France and the United States. Such is the opinion which the Courier now expresses. General Jackson will readily say, according to the Courier, that he did not intend directly to threaten France,

and that after this short explanation on both side, all will be finished. From the Bon Sens, (opposition) copied by the Gazette de France, 30th April.

Mr. Livingston, in the last interview which he had with M. de Broglie, held towards him nearly this language: "All the wrongs of which you complain so bitterly have not been directly addressed to you. The Message of the President is an address of him to Congress, and not of him to France. It is a business of internal concern in which you ought not to meddle, and about which you had no right to take offence. Have we taken offence from any of your speeches in the Chamber, of your epithets of smugglers and cheats which have been applied to us by your orators? Imitate our reserve, and do not make a public question of that which is only a domestic one It is true that it is now too late to give you this advice. You have adhered to the amendment of M. Valaze, which, in our opinion, virtually annuls the Treaty. For this reason, I am obliged to return to the United Statos, and to refer this matter to my

So great was the lumult that it was impossible to proceed with the trial. The Peers remanded the accused to prison, decrecing that their trial should be conducted with out their presence, and that it should be conducted, not by the advocates chosen by the prisoners themselves, but by members of the bar of Paris, elected by the Peers. This usurpation added of course to the excitement prevalent in France, and is calculated to heap further impopularity upon the load which already weighs upon Louis Phillippe .- Baltimore

We wish to keep distinctly before the people the fact that the Whigs are deterinitied if possible to carry the Election of President into the House of Representatives.
